Developing Guidelines for Exposure to Nuclear, Biological, and Chemical Agents

Developing Guidelines for Exposure to Nuclear, Biological, and Chemical Agents

The threat of terrorism using chemical, biological, and radiological (CBR) agents has taken on heightened awareness around the world. *Developing Guidelines for Exposure to Nuclear, Biological, and Chemical Agents* covers a broad range of chemical, biological, and radiological agents and scenarios of acute through chronic exposures. It aids in the development of comprehensive exposure guidelines by addressing the unique nature of terrorist acts and provides response agencies, toxicologists, risk assessors, environmental scientists and specialists, public health practitioners, and industrial hygienists with a quick and consistent approach for dealing with terrorist-related CBR events.
