**Henry** is dissatisfied with the life he's built up around himself. It's ridiculous in some ways, he knows- he's a billionaire, having built up an incredible empire around himself since his humble beginnings. But all of the money in the world seems incapable of making him happy.

He feels overwhelmed by the work piling up around him, and his wife has grown estranged from him since the beginning of their marriage.

She seems only concerned for his money, and it's shaken his trust in people. That is, until one day when a new woman enters his life.

A poor girl, from circumstances much like his own, coming to deliver his lost wallet. Megan is her name. He's encouraged by her honesty, and she, in turn finds herself drawn to him. Can the two of them overcome their own hesitation, and make their true feelings for one another known?
