Izzy Boone thought about a lot of things while navigating the streets of Chicago as a bike messenger –

What should I have for dinner? Don't hit that tourist. Should I try online dating? Watch out for that car. Will this time of year ever get easier? Someone waited too long to throw that out.

One thought that never crossed her mind, though, was just how much a single package could change her life and turn her world upside down.

Looking back, she really wished she had considered it. With her well-documented overactive imagination, she just might be better prepared for the hostile new world before her. Instead, her best friend blindsides her with who he really is; she's running for her life from an organization bent on destroying the world; and she's having horrible visions offering more questions than answers.

Suddenly thrown into a world that contradicts everything she's ever known, Izzy must come to terms with her new reality – fast – as she joins the ranks of Seers and Guardians to fulfill her destiny in the fight to save the world.
