Meds (The Asylum Trilogy Book 2) Amy Cross

“Welcome to the Overflow. And remember, all roads lead back to Lakehurst.”

At the edge of a ruined town, a burned-out hospital houses one final, functional ward. There, a small group of doctors and nurses tend to patients who have been consigned to the Overflow. Unloved, forgotten by the people who knew them, these are the patients who will never receive visitors. If something happens to them, no-one will ask questions.

When she starts work at Middleford Cross, Nurse Elly Blackstock thinks she's getting a second chance. She soon discovers, however, that this particular hospital is unlike any other. In one of the beds, an old man grapples with the horrors of his past, while in another there's a woman condemned to a life of darkness and silence. Ghosts stalk the corridors, and more ghosts are on the way. And watching over all of this is the hospital's administrator, Nurse Kirsten Winter, a woman who is desperately searching for someone named Annie Radford...

Asylum: Meds is a dark horror novel about the lengths one woman will go to as she searches for the truth about the voices in her head.
