Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems)

Soliman Abdel-Hady Soliman, Abdel-Aal Hassan Mantawy

This book presents the application of some AI related optimization techniques in the operation and control of electric power systems. With practical applications and examples the use of functional analysis, simulated annealing, Tabu-search, Genetic algorithms and fuzzy systems for the optimization of power systems is discussed in detail. Preliminary mathematical concepts are presented before moving to more advanced material.

Researchers and graduate students will benefit from this book. Engineers working in utility companies, operations and control, and resource management will also find this book useful. ?

From reader reviews:

Daniel Soderquist:

Here thing why this particular Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems) are different and dependable to be yours. First of all reading a book is good however it depends in the content of it which is the content is as tasty as food or not. Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems) giving you information deeper since different ways, you can find any guide out there but there is no book that similar with Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems). It gives you thrill reading journey, its open up your current eyes about the thing which happened in the world which is probably can be happened around you. You can bring everywhere like in park, café, or even in your approach home by train. If you are having difficulties in bringing the published book maybe the form of Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems) in e-book can be your alternative.

Shirley Kistner:

People live in this new time of lifestyle always try to and must have the free time or they will get lot of stress from both lifestyle and work. So , whenever we ask do people have time, we will say absolutely of course. People is human not only a robot. Then we consult again, what kind of activity do you possess when the spare time coming to you actually of course your answer will unlimited right. Then ever try this one, reading ebooks. It can be your alternative throughout spending your spare time, the book you have read is definitely Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems).

Deborah Beaudry:

On this era which is the greater particular person or who has ability to do something more are more special than other. Do you want to become among it? It is just simple method to have that. What you have to do is just spending your time very little but quite enough to possess a look at some books. One of many books in the top list in your reading list will be Modern Optimization Techniques with Applications in Electric Power Systems (Energy Systems). This book that is qualified as The Hungry Mountains can get you closer in growing to be precious person. By looking upward and review this reserve you can get many advantages.

Karen Delamora:

What is your hobby? Have you heard in which question when you got learners? We believe that that query was given by teacher to their students. Many kinds of hobby, Every person has different hobby. And you also know that little person such as reading or as reading through become their hobby. You should know that reading is very important as well as book as to be the factor. Book is important thing to add you knowledge, except your own teacher or lecturer. You see good news or update in relation to something by book. Different categories of books that can you choose to adopt be your object. One of them is Modern
