A 62 page book proving the existence of Sasquatch In 1967, two Washington state rodeo cowboys were on a search in northern California. They had heard stories of the enigmatic "Sasquatch" and, Roger Patterson, especially, was interested in filming a documentary on the subject. He enlisted the help of his friend and saddle partner, Bob Gimlin in this quest. On a cool October day, they rode around a mound and spotted their elusive quarry and ignited a furor that exists to this day. Read about the PROOF of this event from the testimony of experts in their fields, including absolute, scientific proof contained in pages 35 through 39.
