Women's Figures: An Illustrated Guide to the Economic Progress of Women In America Diana Furchtgott-Roth

The myth that women make 78 cents on a man's dollar is a standard refrain in popular media and serves as a rationale for affirmative action for women. Unstated is that for women and men with the same job and work experience, the wage gap practically disappears. In *Women's Figures*, Manhattan Senior Fellow Diana Furchtgott-Roth shatters the myth of the wage gap. Women are continuing to gain ground relative to men, and in some cases, they have even reversed the gender gap. Rather than helping women, preferential policies undermine America's idea of meritocracy, and call into question the value of women's hard-earned achievements.
